1 Demographics

RNA0200 Citizenship

What is X's(your) current citizenship?

[INTERVIEWER: IN CASE OF TWO OR MORE CITIZENSHIPS, RESPONDENT SHOULD CHOOSE THE MOST IMPORTANT FOR EVERYDAY LIFE GIVING PREFERENCE TO EU CITIZENSHIPS OVER THE REST]

Reference unit: All household members

Reference period: Current

Coding:

Two or three characters country code (using the ISO 3166-1 alpha-2 for two-letter codes for individual countries and the EU-SILC three-letter codes for groups of countries)

Survey definition:

Citizenship

Citizenship is defined as the particular legal bond between an individual and his/her State, acquired by birth or naturalisation, whether by declaration, option, marriage or other means according to the national legislation.

The information sought is the country of current citizenship of the person concerned.

Information on country of citizenship should be obtained in accordance with the administrative status/legal situation existing at the time of data collection.

It is recommended that countries of citizenship are recorded during interview while more aggregated classification according to transmission codes will be used for transmission of data.

In cases of more than one citizenships, the preference should be given to the national citizenship, followed by another EU country citizenship and non-EU citizenship. Using this hierarchical approach will enable using useful aggregated classification on nationals, nationals of other EU Member States and nationals of non EU countries.

In case respondent has no citizenship, a special code NOC - no citizenship can be used.

PNA0100 Field of study

What was your(his/her) main area of study?

Reference unit: All 16+

Reference period: -

Coding:

- 1 - Education
- 2 - Humanities and Arts
- 3 - Social sciences, business and law
- 4 - Science
- 5 - Engineering, manufacturing and construction
- 6 - Agriculture
- 7 - Health and welfare
- 8 - Services

Filtering: If ((PA0200=4)OR(PA0200 = 5)OR(PA0200=6))

Survey definition:

Categories according to the 8 main categories of fields of education: Education, Humanities and Arts; Social sciences, business and law; Science; Engineering, manufacturing and construction; Agriculture; Health and welfare; Services. [Source: UNESCO-ISCED-97].

In particular:

- 1 Education: Teacher training for pre-school, kindergarten, elementary school, vocational, practical, non-vocational subject, adult education, general and specialized teacher training programmes; Education science; Educational research, etc...
- 2 Humanities and Arts: Fine arts (drawing, painting, sculpture); Performing arts (music, drama, dance, circus); Graphic and audio-visual arts (photography, cinematography, music production, radio and TV production, printing and publishing); Design; Craft skills; Religion and theology; Foreign languages and cultures; Native languages; interpretation and translation, linguistics, comparative literature, history, archaeology, philosophy, ethics.
- 3 Social sciences, business and law: Social and behavioural science (Economics, economic history, political science, sociology, demography, anthropology, ethnology, futurology, psychology, geography, peace and conflict studies, human rights); Journalism and information (Journalism, library technician and science, documentation techniques, archival sciences); Business and administration (Retailing, marketing, sales, public relations, real estate); Finance, banking, insurance, investment analysis; Accounting, auditing, bookkeeping; Management, public administration, institutional administration, personnel administration; Secretarial and office work; Law (local magistrates, 'notaires', law (general, international, labour, maritime, etc.), jurisprudence, history of law).
- 4 Science: Life sciences (Biology, botany, bacteriology, toxicology, microbiology, zoology, entomology, ornithology, genetics, biochemistry, biophysics, etc.); Physical sciences (Astronomy and space sciences, physics, other allied subjects, chemistry,

other allied subjects, geology, geophysics, mineralogy, physical anthropology, physical geography and other, meteorology and other, marine science, vulcanology, paleoecology); Mathematics and statistics (Mathematics, operations research, numerical analysis, actuarial science, statistics, etc.); Computing (system design, computer programming, data processing, networks, operating systems, software development only).

5 Engineering, manufacturing and construction: Engineering and engineering trades (Engineering drawing, mechanics, metal work, electricity, electronics, telecommunications, energy and chemical engineering, vehicle maintenance, surveying); Manufacturing and processing (Food and drink processing, textiles, clothes, footwear, leather, other materials, mining and extraction); Architecture and town planning; Building, construction; Civil engineering.

6 Agriculture: Agriculture, forestry and fishery; Veterinary medicine and assisting.

7 Health and welfare: Medicine (anatomy, epidemiology, cytology, physiology, immunology and immunoaematology, pathology, anaesthesiology, paediatrics, obstetrics and gynaecology, internal medicine, surgery, neurology, etc.); Medical services (public health services, hygiene, pharmacy, pharmacology, therapeutics, rehabilitation, etc.); Nursing and midwifery; Dental services (dental assisting, hygienist, laboratory technician, odontology); Social services (care of disabled, child care, youth services, gerontological services; counselling, welfare n.e.c.)

8 Services: Personal services (Hotel, catering, travel, tourism, sports, leisure, hairdressing, cleaning, laundry, etc.); Transport services (nautical science, air crew, air traffic control, railway operations, etc.); Environmental protection, conservation, control; Security services (police work and related law enforcement, fire-protection, civil security. Military).

PNA0200 Health

How is your(your partner's) health in general? Is it...

Reference unit: RP and partner

Reference period: Current

Coding:

- 1 - Very good
- 2 - Good
- 3 - Fair
- 4 - Bad
- 5 - Very bad

Filtering: If ((RA0100=1)OR(RA0100=2))

Survey definition:

The underlying concept is the one of "self-perceived health" (SPH). The measurement of self-perceived health is, by its very nature, subjective. The notion is restricted to an assessment coming from the individual and not from anyone outside

that individual, whether an interviewer, health care worker or relative. SPH is influenced by impressions or opinions from others, but is the result after these impressions have been processed by the individual relative to their own beliefs and attitudes.

The reference is to health in general rather than the present state of health, as the question is not intended to measure temporary health problems. It is expected to include the different dimensions of health, i.e. physical, social and emotional function and biomedical signs and symptoms. It omits any reference to an age. It is not time limited.

Five answers categories are proposed. Two (very good and good) are at the upper end of the scale and two (bad and very bad) are at the lower. It is also important to note that the intermediate category 'fair' should be translated into an appropriately neutral term, as far as possible keeping in mind cultural interpretations, in the various languages.

Due to its subjective nature, the comparability of results can be sensitive to translation. Eurostat's Task Force on the European Health Interview Survey conducted a translation exercise in all EU languages. National EHIS survey or EU-SILC survey questionnaires can be used as a reference for translation into national languages.

[Source: Eurostat, EU-SILC]

Technical definition:

Respondent own evaluation of his/her health is asked.

PNA0300 Siblings

How many living brothers and sisters do you have? (Include also half-siblings, sharing one parent).

Reference unit: RP and partner

Reference period: Current

Coding:

Numerical value, 2 digits.

Filtering: If ((RA0100=1)OR(RA0100=2))

Technical definition:

Half-siblings (i.e. sharing only one parent) should be included.

PNA0400 Are you the eldest

Are you the eldest?

Reference unit: RP and partner

Reference period: Current

Coding:

1 - Yes

2 - No

Filtering: If ((RA0100=1)OR(RA0100=2))

PNA0500 RP's/partner's father alive

PNA0500 [ONLY ASK THE NEXT QUESTION TO RP AND RP'S PARTNER IF FATHER/STEP-FATHER IS NOT PART OF THE HOUSEHOLD]

Is your(your partner's) father still alive?

PROBE: If you(your partner) have(has) a step-father, answer the question referring to the person who was most present when (you were / your partner was) growing up

Reference unit: RP and partner

Reference period: Current

Coding:

1 - Yes

2 - No

Filtering: If ((RA0100=1)OR(RA0100=2))

Technical definition:

The respondent is asked, whether his parents are still alive.

If respondents has/had step-parents, answer to the question should refer to the person who was most present when they were growing up.

If respondent has no information about whether the person is still alive or not, the variable will be coded -1 (Don't know).

PNA0501 RP's/partner's mother alive

PNA0501 [ONLY ASK THE NEXT QUESTION TO RP AND RP'S PARTNER IF MOTHER/STEP-MOTHER IS NOT PART OF THE HOUSEHOLD]

Is your(your partner's) mother still alive?

PROBE: If you(your partner) have(has) a step-mother, answer the question referring to the person who was most present when (you were / your partner was) growing up

HNB0910x External support for housing acquisition

When you (purchased/constructed) your house/flat, did you receive any kind of support from relatives or other persons such as a loan guarantee, financial support without a repayment obligation, a credit or any other?

[Multiple choice]

Reference unit: Household

Reference period: -

Coding:

- 1 - Yes, guarantees
- 2 - Yes, financial support without repayment obligation
- 3 - Yes, credits by relatives
- 4 - Yes, others (please explain)
- 5 - No

a set of 4 variables for items

- a - First option
- b - Second option
- c - Third option

d - Fourth option

Filtering: If [(HB0600=1)OR(HB0600=2)]

Survey definition:

Loan guarantee

A legally binding agreement under which the guarantor agrees to pay any or all of the amount due on a loan instrument in the event of non-payment by the borrower.

[Source: OECD Glossary of Statistical Terms, <http://stats.oecd.org/glossary/>]

Technical definition:

Guarantee

To agree to pay another person's debt or perform another person's duty, if that person fails to come through. For example, if you co-sign a loan, you have made a guarantee and will be legally responsible for the debt if the borrower fails to repay the money as promised.

HNB0920 HMR/Imputed rent

If you rented a house/flat like your house/flat, about how much rent do you think you would have to pay for a year?

Reference unit: Household

Reference period: -

Coding:

Numerical value in EUR, 9 digits.

Filtering: If ((HB0300>0) and (HB0300<>3))

Survey definition:

Imputed rent

Imputed rent refers to the equivalent market rent that shall be paid for a similar dwelling as that occupied less any minor repair or refurbishment expenditure which the owner-occupier households make on the property of the type that would normally be carried out by landlords. Costs for heating, water electricity, etc. are excluded. Repair leading to improvements or fixing major problems of the dwelling are also excluded.

The market rent is the rent due for the right to use an unfurnished dwelling on the private market, excluding charges for heating, water, electricity, etc. By extension, private market

also includes market which is regulated by government regulations

[Source: Eurostat, EU-SILC,

http://circa.europa.eu/Public/irc/dsis/eusilc/library?!=/guidelines_questionnaire/operati on_guidelines_3/silc065_december/_EN_1.0_&a=d]

Technical definition:

The rent that would be paid for a similar dwelling as the one occupied, unfurnished and excluding utilities.

If the household has free use of the property but carries out repairs that would normally be carried out by landlords then this expenditure should be subtracted.

HNB130\$_x HMR mortgage \$_x: institution you have loan with

With which kind of institution (do you / does the household) currently have the loan?

- 6 - Other financial intermediaries
- 7 - Insurance corporations and pension funds
- 8 - Non-financial lender (e.g. government agencies, non-financial corporations, etc.)
- 9 - A relative or friend
- 10 - Other (specify)

Filtering: If (HB1010>\$_x-1)

Survey definition:

Credit institution

Any institution covered by the definition contained in Article 4(1) of Directive 2006/48/EC (recast). Accordingly, a credit institution is "(i) an undertaking whose business is to receive deposits or other repayable funds from the public and to grant credits for its own account; or (ii) an electronic money institution within the meaning of Directive 2000/46/EC. The most common types of credit institutions are banks and savings banks.

Savings bank

Savings banks include trustee savings banks and savings banks and loan associations. Savings banks have liabilities in the form of deposits that may not be readily transferable or in the form of financial instruments such as short-term certificates of deposit which are close substitutes for deposits and included in measures of money broadly defined. See Directive 77/780/EEC, OJEC L 322/1977.

Co-operative (mutual) bank

Co-operative (mutual) banks offer financial services on a cooperative basis. They are owned by their customers and follow the cooperative principle of one person, one vote. They provide services such as savings and loans to non-members as well as to members.

Mortgage bank (special credit institution)

Mortgage banks are specialized in originating and/or servicing mortgage loans. They make mortgage loans directly to consumers. They utilise funds from the secondary mortgage market, or other large mortgage servicing companies. Being non-depository institutions, they require secondary market funds and do not receive income from deposits, as a savings bank does.

Other financial intermediaries

Other financial intermediaries consist of all financial corporations and quasi-corporations which are principally engaged in financial intermediation by incurring liabilities in forms other than currency, deposits and/or close substitutes for deposits from institutional units other than monetary financial institutions, or insurance technical reserves. See ESA95 paragraphs 2.53-2.56 (sub-sector S.123).

Insurance corporations and pension funds

Insurance corporations and pension funds consists of all financial corporations and quasi-corporations which are principally engaged in financial intermediation as the consequence of the pooling of risks. The insurance contracts administered might relate to individuals and/or groups, whether or not participation results from a general obligation imposed by government. Furthermore, social insurance contracts are sometimes a considerable part of the contracts administered. This category includes both captive insurance and reinsurance corporations. It does not include: (a) social security funds; (b) holding corporations which only control and direct a group consisting predominantly of insurance corporations and pension funds, but which are not insurance corporations and pension funds themselves; and (c) non-profit institutions recognized as independent legal entities serving insurance corporations and pension funds, but not engaged in financial intermediation.

Pension funds can be described as institutions which insure group risks relating to social risks and needs of the insured persons. The typical groups of participants in such policies include employees of a single enterprise or a group of enterprises, employees of a branch or industry, and persons having the same profession. The benefits included in the insurance contract might encompass benefits which are paid after death of the insured to the widow(er) and children, benefits which are paid after retirement and benefits which are paid after the insured became disabled. In contrast to life insurance corporations, pension funds are restricted (by law) to specified groups of employees and self-employed.

See ESA95 (sub-sector S.125).

Non-financial lender:

A unit providing financing but which does not belong in the financial corporations sector. See ESA95 (sector S12).

Technical definition:

Commercial (retail) bank

This is what people normally call a "bank". It is a bank raising funds by collecting deposits from businesses and consumers via checkable deposits, savings deposits, and time (or term) deposits. It makes loans to businesses and consumers. Its primary liabilities are deposits and primary assets are loans and bonds.

Savings bank

A savings bank is a financial institution whose primary purpose is accepting savings deposits, that is, savings accounts that pay interest but can not be used directly as money (by, for example, writing a cheque), i.e. are non-transferable. Using these accounts, the customer can set aside a portion of his liquid assets that could be used to make purchases while gaining an interest rate on it. Savings banks are usually characterized by a broadly decentralised distribution network, providing local and regional outreach.

Co-operative (mutual) bank

A co-operative (mutual) bank is a bank that is owned and controlled by its members. Differently from other banks, the members who have accounts in a cooperative bank are the owners of the bank itself. Although it offers many of the same financial services as do other banks, only a member can deposit money or borrow money from such a bank. Examples of European cooperative banking systems include the Cr dit Agricole, Cr dit Mutuel, Banque Populaire and Caisse d' pargne in France, Rabobank in the Netherlands, BVR/DZ Bank in Germany, Banca Popolare di Milano in Italy, Migros and Coop Bank in Switzerland and the Raiffeisen system in many Central and Eastern European countries. Spain, Austria, Poland and other European countries also have strong cooperative banks. They play an important role in providing mortgage and business credit.

Mortgage bank (special credit institutions)

Mortgage bank is a bank specialised in granting mortgage loans and where you cannot deposit your money.

Other financial intermediaries

Other financial intermediaries are financial corporations other than commercial banks, insurance corporations and pension funds. For instance, corporations engaged in financial leasing; in factoring; in hire purchase and the provision of personal or commercial finance; security and derivative dealers; specialised financial corporations such as venture and development capital companies; export/import financing companies; financial vehicle corporations created to be holders of securitised assets; financial intermediaries which receive deposits and/or close substitutes for deposits from MFIs only; and holding corporations.

Insurance corporations and pension funds

An insurance corporation is a company that sells insurance, i.e. a form of risk management primarily used to hedge against the risk of a contingent loss in exchange for a premium. A pension fund is a pool of assets (forming an independent legal entity) that are bought with the contributions to a pension plan for the exclusive purpose of financing pension plan benefits.

Non-financial lender

An institution different from a bank or from a leasing/consumer credit company which grants loans to households. It can be a general government agency (for example a social security institution could grant loans to civil servants which participate to the relative pension scheme) or a firm (for instance a firm could grant loans at special conditions to its employees).

HNB140\$^x HMR mortgages: work for institution granting the loan

Do you (or anyone in your household) work for the institution that granted you the loan(s)?

Reference unit: Household

Reference period: Current

Loop: Loop for HMR mortgages

Filtering: If (PE0200=1)

Survey definition:

United Nations definition for establishment employment

Employment in establishment surveys is the total number of persons who work in or for the establishment including working proprietors, active business partners and unpaid family workers, as well as persons working outside the establishment when paid by and under the control of the establishment, for example, sales representatives, outside service engineers and repair and maintenance personnel. Also included are salaried managers and salaried directors of incorporated enterprises. The total should include part-time workers and seasonal workers on the payroll, persons on short-term leave (sick leave, maternity leave, annual leave or vacation) and on strike, but not persons on indefinite leave, military leave or pension.

Definition of a enterprise (European Union)

The enterprise is the smallest combination of legal units that is an organisational unit producing goods or services, which benefits from a certain degree of autonomy in decision-making, especially for the allocation of its current resources. An enterprise carries out one or more activities at one or more locations. An enterprise may be a sole legal unit.

[Source: European Union, Commission Recommendation 2003/361/EC of 6 May 2003 concerning the definition of micro, small and medium-sized enterprises United Nations, International Recommendations for Industrial Statistics European Union, Council Regulation (EEC) No 696/93]

Technical definition:

For the company, including all different establishments in the country, how many persons are on average employed by the firm.

Important limits are 10 (micro), 50 (small), 250 (medium) according to the European Commission's definition.

PNE0700 Hours worked - additional employment contracts (as an employee)

On average, how many hours a week (do you/does [he/she]) usually work in this additional job (these additional jobs) as an employee?

Reference unit: Household

Reference period: Last 12 months/last calendar year

Coding:

Numerical coding in EU, 9 digits.

Survey definition:

Tax on income refers to taxes on income, profits and capital gains. They are assessed on the actual or presumed income of individuals, households or tax-unit. They include taxes assessed on holdings of property, land or real estate when these holdings are used as a basis for estimating the income of their owners.

Taxes on income include:

- Taxes on individual, household or tax-unit income (income from employment, property, entrepreneurship, pensions, etc.), including taxes deducted/withheld by employers (pay-as-you earn taxes), other taxes at source and taxes on the income of owners of unincorporated enterprise paid during the income reference period.
- Tax reimbursement received during the income reference period related to tax paid for the income received during the income reference period or for income received in previous years. This value will be taken into account as a reduction of taxes paid.
- Any interest charged on arrears of taxes due and any fines imposed by taxation authorities

Taxes on income exclude:

- Fees paid for hunting, shooting and fishing

Social insurance contributions refers to employees', self-employed and if applicable unemployed, retirement and so on contributions paid during the income reference period to either mandatory government or employer-based social insurance schemes (pension, health, etc.).

[Source: EU-SILC guidelines]

PNG0110 Net employee income

What was the total net amount over (the last 12 months / last calendar year)? Please include income from regular wages or salaries, as well as any overtime pay, tips, bonuses, profit sharing benefits (unless part of the pension arrangements), minus taxes and employee's social contributions.

Reference period: Current

Coding:

1 - Yes

2 - No

Survey definition:

School fees

COICOP-HBS classification of goods 10 Education

Nursing Homes

COICOP-HBS classification of goods: 12.4 Social protection.

Health Expenses

COICOP-HBS classification of goods: 06.1.1 Pharmaceutical products 06.1.2 Other medical products; 06.1.3 Therapeutic appliances and equipment; 06.2 Outpatient services, 06.2.1 Medical services 06.2.2 Dental services; 06.2.3 Paramedical services 06.3 Hospital services, 06.3.0 Hospital services; and 12.5.3 Insurance connected with health (12.5.3 is asked in Section 6, so whether or not it should be included is subject to further discussion)

Home Staff

COICOP-HBS classification of goods: 05.6.2 Domestic services and household services (S)

Rent

COICOP-HBS classification of goods 04.1 Actual rentals for housing; (04.1.1 Actual rentals paid by tenants 04.1.2 Other actual rentals)

NOTE: This concept is only to be used for the purposes of Section 10, question 10.5, (that suggest respondents to exclude rent from school fees and other expenses)

Technical definition:

School fees

Regular payments to institutions that provide either primary, secondary or university education.

Nursing Homes

Payments to institutions that provide in-patient or out-patient long-term care to elderly, handicapped or ill individuals.

Health Expenses

Health expenses cover: (1) payments of pharmaceuticals, drugs, vaccines, medical equipment and the remuneration of services provided by physicians or dentists (both within and without a hospital), (2) payments to institutions that provide short-term health services, (3) payments for hotel services (food, accommodation) provided by a hospital or a similar institution and (4) regular payments as health insurance premia (the latter concept is asked in Section 6, so whether or not it should be included is subject to further discussion).

Home Staff

Total compensation to an individual who provides personal services at home (home servants, cooks or au-pairs).

Rent (defined in a previous Section)

NOTE: This concept is only to be used for the purposes of Section 10, question 10.5, (that suggest respondents to exclude rent from school fees and other expenses): All payments made by the household to the institution or person that owns a dwelling for the use of that dwelling. Payments for using the garage, if one exists, should be included in the rent. For the purposes of question 10.5, rents also include rental services provided by the employer. All those concepts should be excluded from "regular expenses" in 10.5.
