**Specific-Group's
Test-Automation using market-proven Robotics**

**Specific-Group's
Fully configurable "Universal Converter" Solution**
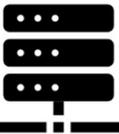

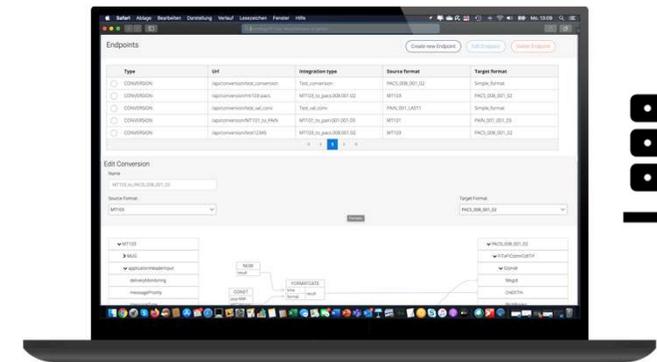

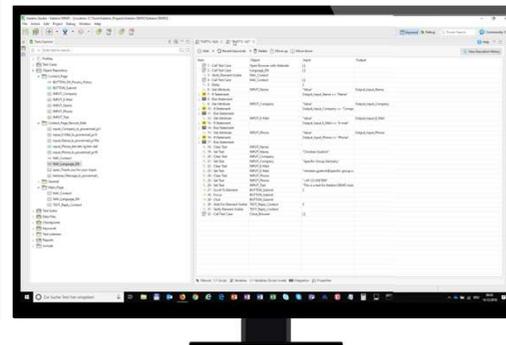

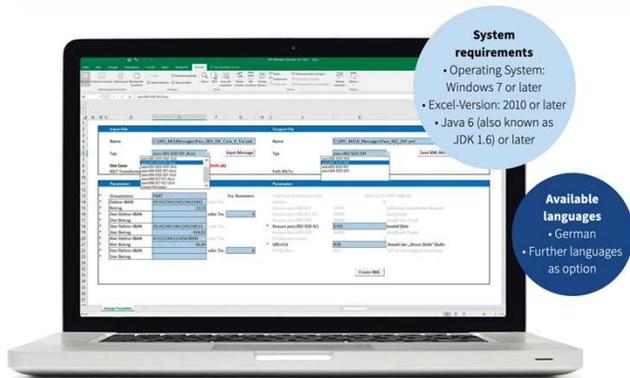

We know how.

Understanding Legacy Systems – if know how is required
Software Assessment and re-engineering

WE KNOW ENTERPRISE ENVIRONMENTS WITH NEW, MODERNIZED, GROWN AND LEGACY SOFTWARE

Source code analysis e.g. of RPG, or other Legacy Software/ Code

Checking/ **analysis of the technical environment** and the processes connected to it.

Evaluation of your (development) process, the systems and potentials

Skills and assignment analyses for the software development team are created and documented.

We formulate the findings and information from the assessment module in concrete recommendations for action and implementation plans and communicate to the identified stakeholders.

Actual evaluation state

Quality evaluation of inventory software

Quick–wins and long-term targets
