Croatian NSG

The Single Collateral Management Rulebook for Europe (SCoRE) contains 4 Standards related to billing processes (published as the [AMI-SeCo Standards for Billing Processes](#)). Implementation progress is monitored twice per year. This summary report presents the results of the H1 2021 monitoring exercise conducted by the Croatian NSG with the involvement of the following stakeholders:

2 entities are monitored in the Croatian market

- 1 CSD – SKDD
- 1 Custodian – Interkapital vrijednosni papiri d.o.o.

The SCoRE Overview provides a high-level summary of the H1 monitoring exercise.

SCoRE Overview

 SINGLE COLLATERAL MANAGEMENT RULEBOOK FOR EUROPE	 Response Rate	 Implementation Status	 Milestones achieved?	 Implemented on Time?
Custodians	20%	Implemented 8% Analysis started 0% Implementation started 0%	0%	20%
CSD - SKDD	100%	Implemented 40% Analysis started 0% Implementation started 60%	No	Yes

Note: Implemented on time reflects the entity's expected ability to achieve the final milestone on time.

This NSG summary report is structured as follows: The Executive Summary provides an overview of the responses received per Entity Type i.e. CSD, TPA, Custodian etc. Section 1 presents the compliance status of each entity type. Section 2 provides an overview of the progress against the individual milestones. Section 3 then provides a more detailed overview of the implementation status per Standard for each entity type.

Executive Summary

Analysis of the Billing Processes Standards in the Croatian market has commenced

CSD - SKDD responded to the survey. One Custodian in the Croatian market participated in the current round of the monitoring survey, but more Custodians are expected to participate in the next round.

Based on the agreed milestones, implementation process of the Standards is on schedule.

CSD - SKDD

Two of four standards, Harmonised billing cycles and Cut-off date for provision of billing information by (I)CSDs, have already been implemented (blue).

Standards 1 (ongoing analysis) and 4 (ongoing development and implementation) are on track (yellow).

2 standards have already been implemented while the remaining 2 standards are being analysed

Regarding Harmonised dates for payment of fees to (I)CSDs, some minor system changes are required and will be implemented as soon as the price list officially allows.

Implementation of standard 1 in terms of defining the content of the message should be done on time. Final implementation of the standard 1 entirely depends on capability to communicate ISO20022 messages.

Custodians

Custodian participation is expected in the next monitoring exercise

One Custodian - Interkapital vrijednosni papiri d.o.o participated in the current round of the monitoring survey, with more expected to participate in the next round.

Two of four standards, Harmonised billing cycles and Dates for payments fees, have already been implemented.

Standard 3, Cut-off date for provision of billing information, is not applicable for Custodians.

Analysis has not started yet for Standard 1, ISO 2022 messaging.

1 SCoREBOARD

This section presents the overall compliance status in the market. CSDs and TPAs are monitored on an individual basis and are assigned a colour-code status in accordance with the methodology outlined in Box 1¹. Custodians are monitored on an aggregated basis and assigned a percentage compliance status.

Box 1 SCoREBOARD – Implementation Phase

- The Standard has been implemented
- Implementation of the Standard is on schedule (based on the agreed milestones)
- Implementation is behind schedule (based on the agreed milestones)
- Implementation has not started

For custodians, progress is monitored and reported as a percentage; for example the % of custodians in a given market who have started internal adaptation of IT systems.

Table A
SCoREBOARD

STANDARD	Custodians	CSD - SKDD
1: ISO 20022 messaging	0%	G
2: Billing cycles	20%	B
3: Cut-off date	0%	B
4: Dates for payments fees	20%	G

Notes:

- For CSDs and TPAs the colour-code reflects the current implementation status of each Standard in accordance with the methodology outlined in Box 1 above.
- For custodians the % indicates that the standard has either already been implemented, or that implementation is on track i.e. at a minimum that analysis has already started or that implementation has started per Standard.
- Percentages are calculated on the basis of expected respondents, i.e. number of entities monitored in the market.

Milestones expected to be achieved in the current reporting period are highlighted in blue in the header of Table B below. The blue colour-code is then assigned to those milestones which have been successfully achieved to date for each respective entity. Milestones which will only be achieved later are assigned a yellow status, while milestones which will only be achieved with significant delays / where work has not yet commenced are marked in red.

For the remaining milestones (i.e. milestones due to be achieved only after the current reporting cycle) the colour-code indicates an entity's expected ability to achieve a future milestone on time. The expected date of achievement is also indicated in the table if it is different to the milestone date defined by AMI-SeCo.
